Tip of the Month

- ◆ March's focus is Colorectal Cancer Screening
- ◆ If a pt receives a screening from an outside entity, record the test in the correct field in your EMR where the data will be captured. Attached reports are "hidden" in exports
- ◆ Use FIT/Cologuard testing when appropriate to close the gap as well

QHP Coverage Area

QHP Quality

Quality Committee topics 24:

- Annual Wellness Visit
- Medication Adherence
- Risk adjustment training

Have an idea for Quality leaders of QHP to discuss for best practice, tip and tricks, etc?
Let Lindsay know!

Monthly measure focus:

January—Cervical Cancer
February—lipid screening
March—Colon Cancer
April—Diabetic wellness
May—Immunizations
June—BP control
July—Asthma (controller meds, spirometry)
August—Hepatitis C screening
September—Medicare Wellness Visit
October—Mammograms
November—Depression Screening

A Physician-Hospital Organization (PHO) is a joint venture between physicians and a hospital/system that is authorized to contract with payers. A clinically integrated PHO is one that uses systems and processes to improve quality and reduce cost through evidence based medicine, performance measurement, information sharing, and alignment of incentives.
