Tip of the Month

- ◆ November's focus is Depression Screening
- ◆ Are your scores low? Many organizations have not yet updated their data extracts to include PHQ scores—QHP admin can help!
- ◆ Measure also includes Screening Follow Up— captured by claims data

2025 QHP Focus: Removing Barriers

- Data extracts from every organization up to date/complete
- Education surrounding Clinigence and Scorecards
- Ensuring Care Gap Closure processes are established
- Improve Colonoscopy Wait Times
- Improve PCP Quality Performance
- Continue Quality Focus from 2024

QHP Measure Changes for 2025

Restructuring program measures with a focus on payor alignment and value-based care

Program highlights:

- Reduced total measures by 1/3 from 2024
- Consolidated Disease Category measures into General Population measures
- Used CMS recommendations to guide measure and specialty assignments
- Each specialty was reviewed individually for applicable and meaningful measures

New Measures:

- Advance Care Plan
- Unplanned Hospital Visit w/in 7 days of OP Surgery
- Screening for Social Drivers of Health
- Statin Therapy for the Prevention and Treatment of Cardiovascular Disease
- Tobacco Assessment enhanced to include tobacco cessation intervention

Measures will be sent by specialty to each organization

A Physician-Hospital Organization (PHO) is a joint venture between physicians and a hospital/system that is authorized to contract with payers. A clinically integrated PHO is one that uses systems and processes to improve quality and reduce cost through evidence based medicine, performance measurement, information sharing, and alignment of incentives.
